

## Sponsorship Packages

These sponsorship packages are intended as frameworks for developing a fruitful relationship between partner organizations/sponsors and the Future Impact Challenge. Further communication with the event coordinators of Future Impact Challenge will be necessary to ensure both parties are able to get the best experience during the event.

### Sponsorship package options:

Sponsorship packages may include any number of the options listed below. We are also more than happy to collaborate with you to come up with new and innovative ways to extend sponsorships that suit both parties.

- Provide prizes (Credits for a product, free trial or scholarship are a few examples).
- Offer resources from the company/organization.
- Promoting the event within the sponsor's network and marketing.
- Hosting workshops to provide lessons on using sponsored tools or lead discussion panels on a specific topic.
- Provide recognition for participants through internships.
- Sponsor individual teams for recognition. (Low-Income teams, diverse teams, and teams with unique ideas that align with the sponsor are a few examples).

## In Return

In return for the generous partnership, the Future Impact Challenge opens itself to the sponsors and partner organizations with a number of benefits:

- Partner organization logo and link featured on the homepage of the Future Impact Challenge.
- Promotion of the partner organization in Future Impact Challenge events throughout the entire competition.
- Promotion through ACF's social media channels and network.
- Recognition through hosting workshops.
- Opportunities to mentor teams that have developed projects that are aligned with the partner organization's business interests and goals.
- Opportunities to expose the partner organization to the ACF's global teen tech and entrepreneurship ecosystem.
- Follow-up networking opportunities as well as a continued partnership for upcoming Future Impact Challenge competitions and with ACF.
